TO THE TRADE:

At this time all of us are primarily concerned with bringing hostilities to an end and with our regular duties this has resulted in little or no spare time for any of us, and so it is with that thought in mind that we offer you our new catalog, rearranged to enable you to find items in the shortest possible time as explained on the next page.

Your past business is greatly appreciated and our sincere hope is that this season will bring you even greater success and further need for our quality, price and service in nursery material.

A WORD CONCERNING THIS CATALOG

THESE THREE SECTIONS MAKE UP THE CONTENTS:

SECTION I—Lists coniferous nursery stock and is divided into four subheads, each listed according to the ultimate height of the material sought, making this oft' requested information instantly available.

SECTION II—Lists broadleaf plants and is divided into three subheads, each shown alphabetically by the common names of the plants.

SECTION III—Has three separate subheads each of which are listed alphabetically and are otherwise self explanatory.

PLEASE

The prices in this catalog were written in September 1943 and are subject to change without notice owing to the unsettled economic conditions.

Our Nursery Stock and Roses are grown in moderately rich, firm, but porous soil which permits the ball of earth to readily unite with the soil into which it may be planted. All of the balls are flat bottomed and uniform in dimensions according to the size of the plant. They are suitable for planting where irrigation is required.
